

Let Your Sewing Be a Pleasure!

USE
The White Machine

Light, easy running, and practically noiseless. No more tired muscles or worn-out nerves when you use the "WHITE," and—

There's no reason why you shouldn't have it, as all that is required is \$1.00 down, and \$1.00 a week easily settles the remainder.

Come in and see this wonderful, scientific Sewing Machine—it will only take a few minutes to show you its many points of genuine superiority over any machine made.

Miss Zener from the White Sewing Machine factory is in attendance all this week.

Watch our window for samples of her work and see the workings of the new White Electric-Propelled Machine. It is the slickest thing out. This machine can be placed on any table or stand in the house, wherever it is the most convenient. The speed regulated by the pressure of the foot. See this new feature before purchasing.

The current issue of the Monumental News contains a half-tone picture of A. W. Fenner, formerly of Barre, who is an eastern granite representative with offices in Philadelphia. Mr. and Mrs. A. L. Pierce of Hill street have succeeded in obtaining for their son, Raymond Pierce, a discharge from the U. S. A. and the young man is expected daily to arrive in the city from New Haven, Conn., where he was transferred from his comrades in what was formerly one of the Barre companies in the state National Guard. Young Pierce's discharge became operative on the eve of the departure of many of his companies for overseas service. He enlisted in the Vermont National Guard at the outbreak of the war.

A freight blockade on the Central Vermont railroad near Sharon played the mischief with late afternoon and evening mail service yesterday, with the result that much mail matter remained undelivered until this morning. The mail train due to arrive in Barre at 4:35 p. m. came into the local station around 9 o'clock. As the early evening wore away people gathered at the station to await the arrival of friends on the train. It was advised that the schedule was so completely disrupted by the Sharon blockade that no one could foretell the hour when the mail would arrive.

Muddy Depot square was mused up considerably yesterday afternoon when a horse driven by Overseer William McDonald of the charity department, who was delivering tools for a Blackwell street firm, essayed a quick step that left its master well nigh mired while an anxious group of bystanders half-heartedly attempted to stop the horse. Through the square ploughed the horse with its legs stretched out for a long sprint. At the corner, however, second thought seemed to impel the runaway eastward, for it veered from the north and headed straight for the Jones & Nye livery yard. In that enclosure the efforts of a stable man undoubtedly prevented the wagon from being ground to bits. Mr. McDonald was not injured.

A \$5.00 Blanket now will look very nearly as good to you as those that you bought last season. These prices you have your

merchant to thank for. Manufacturers are surely getting their profits on future deliveries. We suggest that your first fall purchases be on these goods. That is, if you will have to have them later.

WOOL DRESS GOODS—Don't get the idea that we are selling Wool Dress Goods on the present cost of Wool, for we are not. You can buy your All-Wool Dress Goods, all sponged and shrunk, 44 inches wide, in all colors, at only \$1.25 per yard. This makes a nice Dress and one of the very best for wear.

Munsing Underwear and Black Cat Hosiery will be some of your very best purchases. These kinds are below the market for price and above the market for value. Real hard wear.

William Hurry of Long street, district deputy grand master of the sixth Masonic lodge, goes to Waitsfield this evening for the annual inspection of Mad River lodge, No. 77. Several Barre Masons will accompany Mr. Hurry to Waitsfield.

Defections from the ranks of the Barre Pipe band because of members leaving the city for employment elsewhere threatens to disrupt an organization which has furnished the martial music for numerous parades and celebrations during the summer. In the first season of its existence, the band has more than justified its existence and performed most notably on such occasions as the big flag day celebration in Barre last May and at a similar demonstration in Waterbury a few weeks later. Those who have been more deeply interested in the fortunes of the "kiltie" band are fearful lest the diminution of its numbers may discourage efforts to continue the organization. To the end that the band may be continued an appeal is being made for young men to fill up the ranks. Rehearsals are held weekly and candidates who are desiring of embracing an opportunity for receiving free instruction in band music may report on any practice evening. The next rehearsal is to be held in Clan Gordon hall Wednesday evening at 7:30 o'clock and it is hoped that a number of new men will be present to confer with the bandmen.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no hawking, snuffing, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.—Adv.

A musical program has been arranged and various forms of entertainment will be engaged in.

Although the Goddard seminary football schedule has not yet been completed, arrangements are being made towards starting the basketball season and the management of the team has made arrangements for playing the first game of the season this evening at the hill-top "gym," when they are to meet the Newbury high school team. Coaches Hoernle and Early have a fine nucleus in Smith, Carroll and Kauff of last year's team and should get together a team equal to those of past years. Carroll is the captain of the team, while Soule is manager. The football squad is scheduled to meet the St. Peter's A. A. team Saturday afternoon at the hill-top campus. Goddard managed to get away with the big end of the score last Saturday, and so a good game is expected.

Postmaster George W. Gorman has received from the postoffice department instructions covering the dispatch of packages addressed to soldiers of the American expeditionary forces in France. Packages for American soldiers overseas must not exceed seven pounds in weight and the explanation attached to this ruling states that the French railroads, already overtaxed in the exigencies of war, are not to carry individual packages exceeding seven pounds. In connection with the same notice it is announced that all packages addressed to soldiers overseas must be examined by the postal attaches at the point of mailing, the desire being to eliminate all possibility of shipments of explosives, perishable matter or wet goods going through.
